

Simple Incapacity Planning for Young Adults

We've learned first hand unforeseeable tragedies can happen right in our backyards. Other unforeseeable accidents and illnesses can occur at anytime. It's important for parents to truly understand that once their child turns 18, they are considered an adult. Parents can no longer make financial and medical decisions regarding their adult children.

Call us at 954-382-1997
to learn how we can help create the basic
legal documents to protect your child's health and credit

***Parents cannot make medical and financial
decisions for their adult children.***
